Read a Picture Map

Parent guide

Try 5-10 minutes. An adult reads aloud. Your child can move a finger and say the answers. A pencil is optional.

Print pages 2-3 on A4 in black and white. Answers are on page 4.

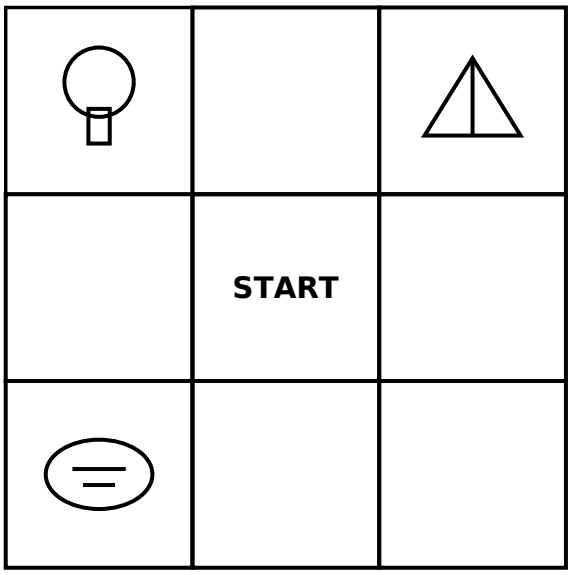
Read the key and model a route

The key tells you what each picture means. Keep the page upright.

Put your finger on START. Read the arrows from left to right.

Move one square per arrow. Up means toward the top of the page.

You can move through any square, including one with a picture.



Map key

tree

tent

pond

Try these two arrows. ↑ ←

Move up one square, then left one square.

Use the key. You land on the tree.

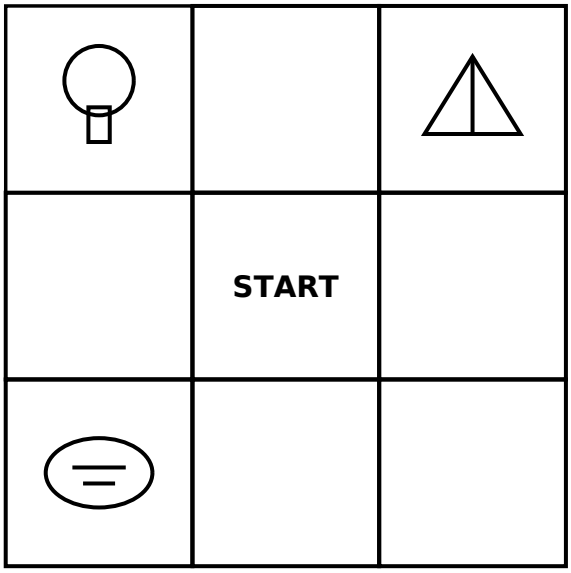
Go back to START before each new route.

1. Follow the route

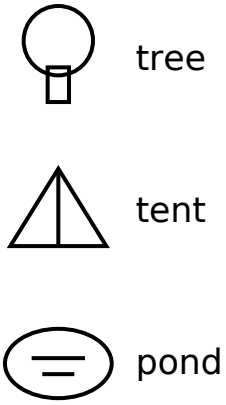
Put your finger on START. Follow the arrows in order.

Move one square for each arrow. Use the key to name the place.

Go back to START before each question.



Map key



1. ← ↑ I land at: _____

2. → ↑ I land at: _____

3. ↓ ← I land at: _____

4. → ↓ ← ← I land at: _____

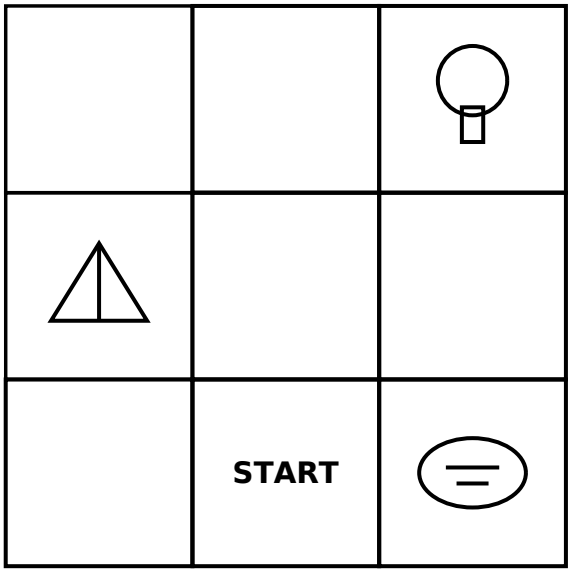
If you get lost, return to START and try the arrows slowly.

2. Read a different map

Look for the new START square. Read each route from left to right.

Move one square per arrow and use the key to name the place.

Return to START before each question.



Map key

tree

tent

pond

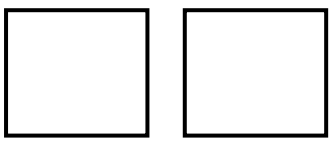
1. → ↑ ↑ I land at: _____

2. ↑ ← I land at: _____

3. → I land at: _____

4. Find another way to the tent in exactly two moves.

Draw two arrows or say the directions in order.



Answers and parent prompts

Page 2

1. Left, up: tree.
2. Right, up: tent.
3. Down, left: pond.
4. Right, down, left, left: pond.

Page 3

1. Right, up, up: tree.
2. Up, left: tent.
3. Right: pond.
4. Left, up: tent. Up, left is the route already used in question 2.

Talk together

Ask your child to point to the matching picture in the key.
You can say each direction while your child moves one square.
If your child misses a move, return to START and read one arrow at a time. You can cover the arrows you have already used.

Optional practice

On page 3, ask for another route to the tree in three moves.
Example: up, up, right. Up, right, up also reaches the tree.
Let your child show the moves with a finger.
