

Kids Nature Observation Journal Starter Pack

Ages ~4–8 · Outdoor walks, garden & window watching

How to use (parent note)

- Take this pack on a short outdoor walk, into the garden, or use it by a window on a rainy day.
- One page at a time is plenty — quality noticing beats rushing.
- Tick, colour, draw and write what you really see.
- An adult can help with spelling; kids lead the looking.
- Reuse pages on different days or seasons.
- Keep finished pages as a nature scrapbook.

Print at home · Personal use · Colour the outlines · Irish/UK-friendly wording
