

Picture Addition and Subtraction

For ages about 4–5
Reception · junior and senior infants

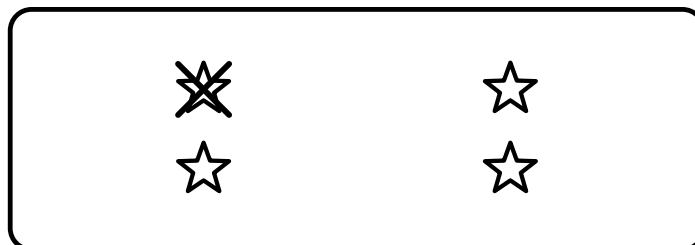

Free printable · Black and white

How many altogether? 3

Count the pictures. Do not start with the plus sign.

Then try take-away

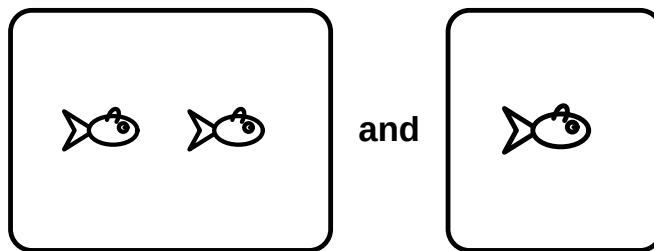

4 stars, 1 crossed out → 3 left

A note for grown-ups

Count the pictures, don't start with the plus sign.

Point and count first. Writing comes later.

two and one make three altogether

How to use this pack

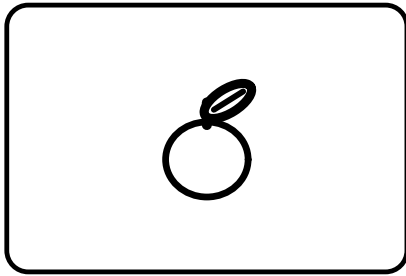

1. Point and count every picture with a finger before anyone writes.
2. Say "how many altogether?" or "how many are left?" out loud.
3. A spoken answer is enough. Use the write boxes when writing is ready.
4. Pages 3 to 6 are "how many altogether." Pages 7 to 9 are "how many left." Page 10 mixes both.
5. Every number stays inside 5. Crossed-out pictures do not count.
6. Stop while it still feels calm. One page a day is plenty.

Print at home. Personal use. This pack is free.

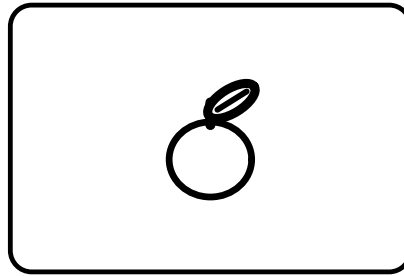

How many altogether?

Count both groups of apples. Write how many altogether.
