

Subitising to 5

Say how many you see, then write it.

Ages about 4 to 5

Black and white · Free printable

The child says the number first.

Then the child writes it.

Groups go up to five only.

Do not count the dots one by one.

Note for grown-ups

1. Look at the whole group and say the number.

Do not count the dots one by one.

2. Then write it in the box.

The box under the die is empty on purpose.

The answers are on the last page.

What this teaches

The child says how many they see, without counting one by one, for groups up to 5.

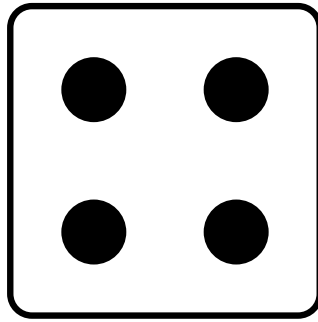

What comes next

They use the same look on a dice, or in the number bonds pack.

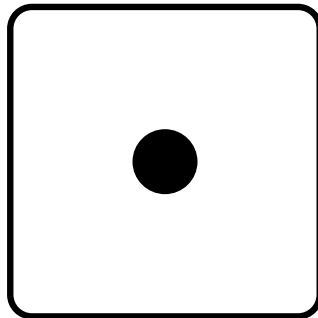

What you need

A pencil.

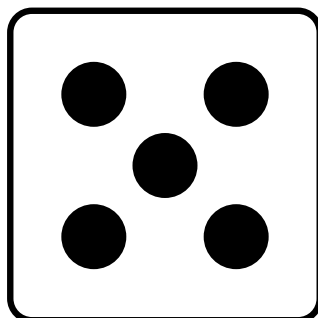

Look and say

Say how many. Then write it.
