

Kids Pencil-Control Path Mazes Pack

Follow the path · Stay inside the lines

For ages ~3–5/6 · Instant download

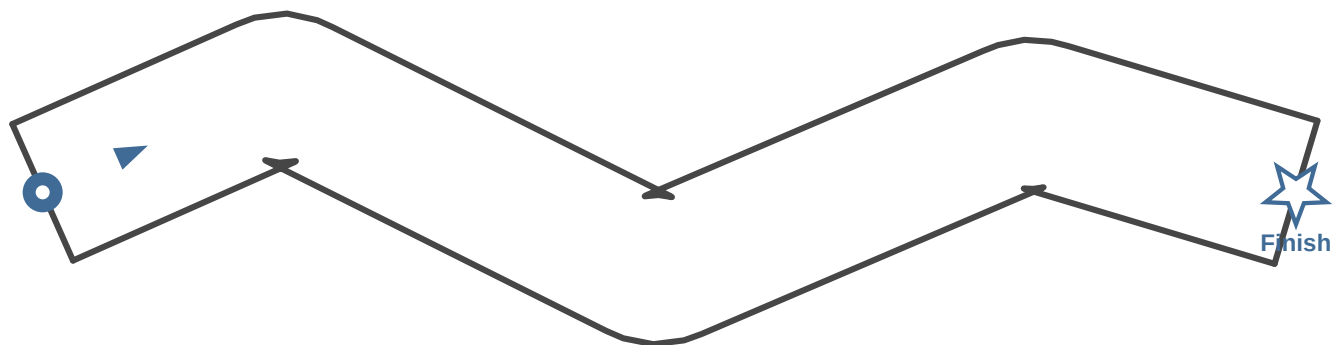

How to use

1. Start at the teal start-dot and follow the arrow.
2. Stay inside the path — don't cross the walls.
3. Finish at the star. Tripod pencil grip tip: pinch near the tip, rest the pencil on your middle finger (grown-up can model).
4. Paths get trickier — wide & gentle first, then tighter turns.

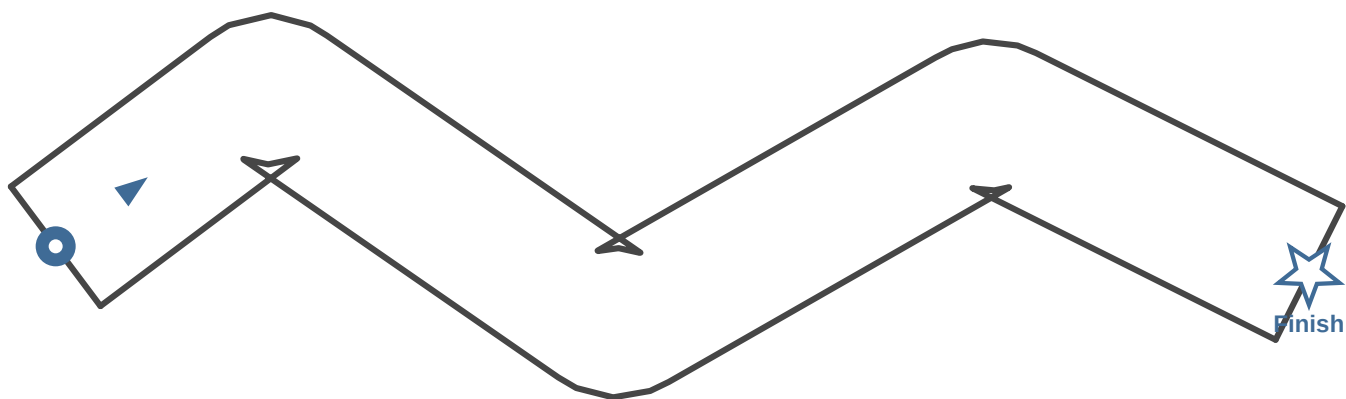

Wide & gentle paths

Big corridors — stay inside from start-dot to star

Path 1 — smooth hills

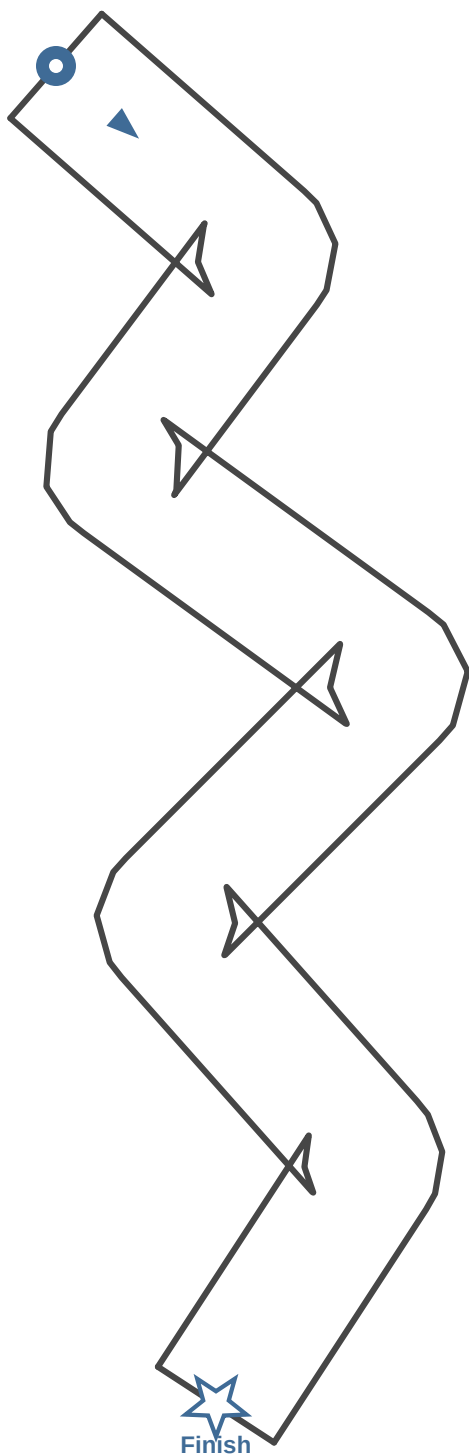

Path 2 — big curves

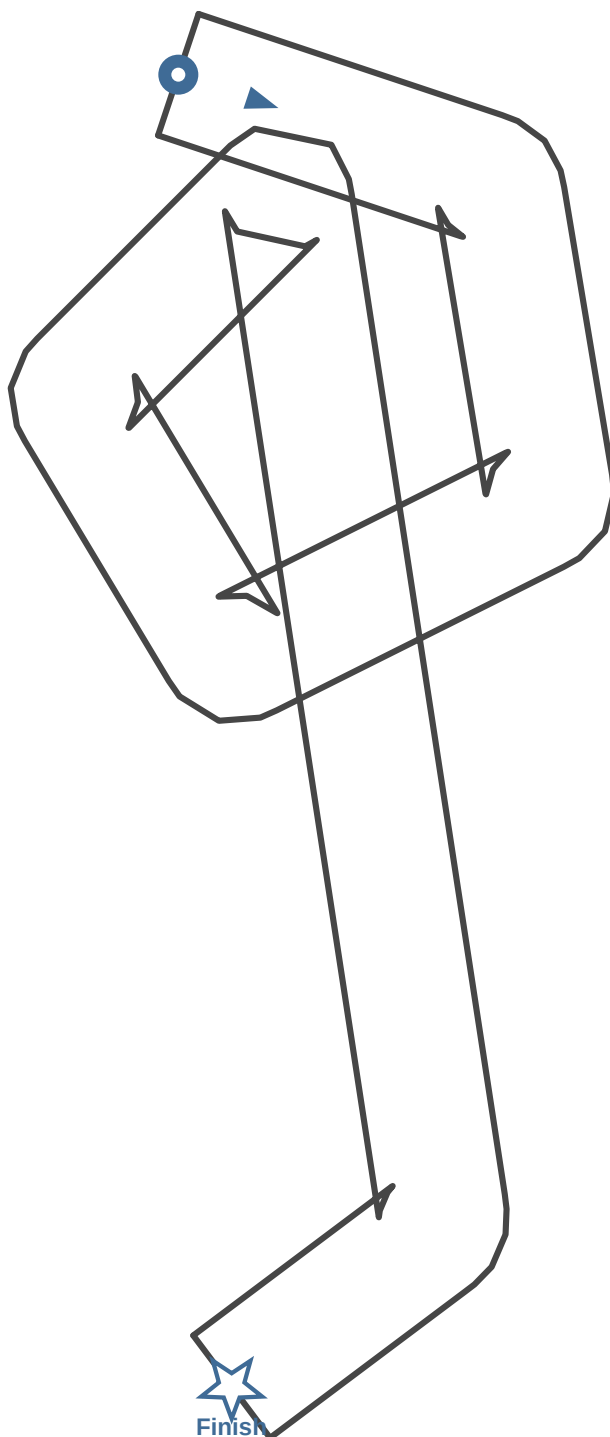

Wide paths · more travel

Still roomy — keep a steady hand

Path 1 — down the page

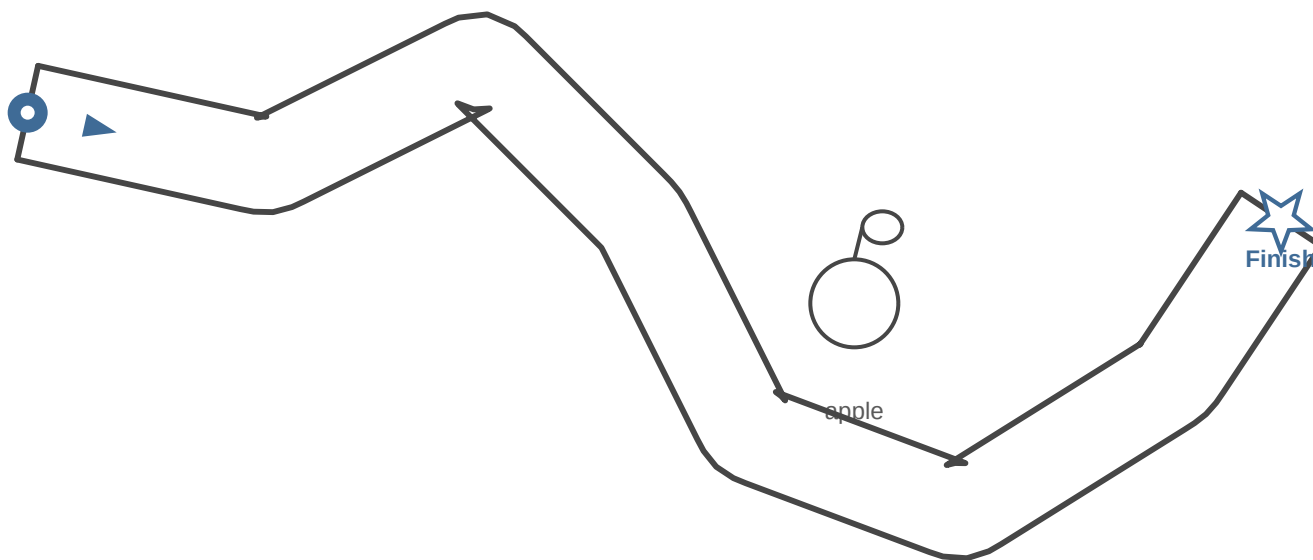

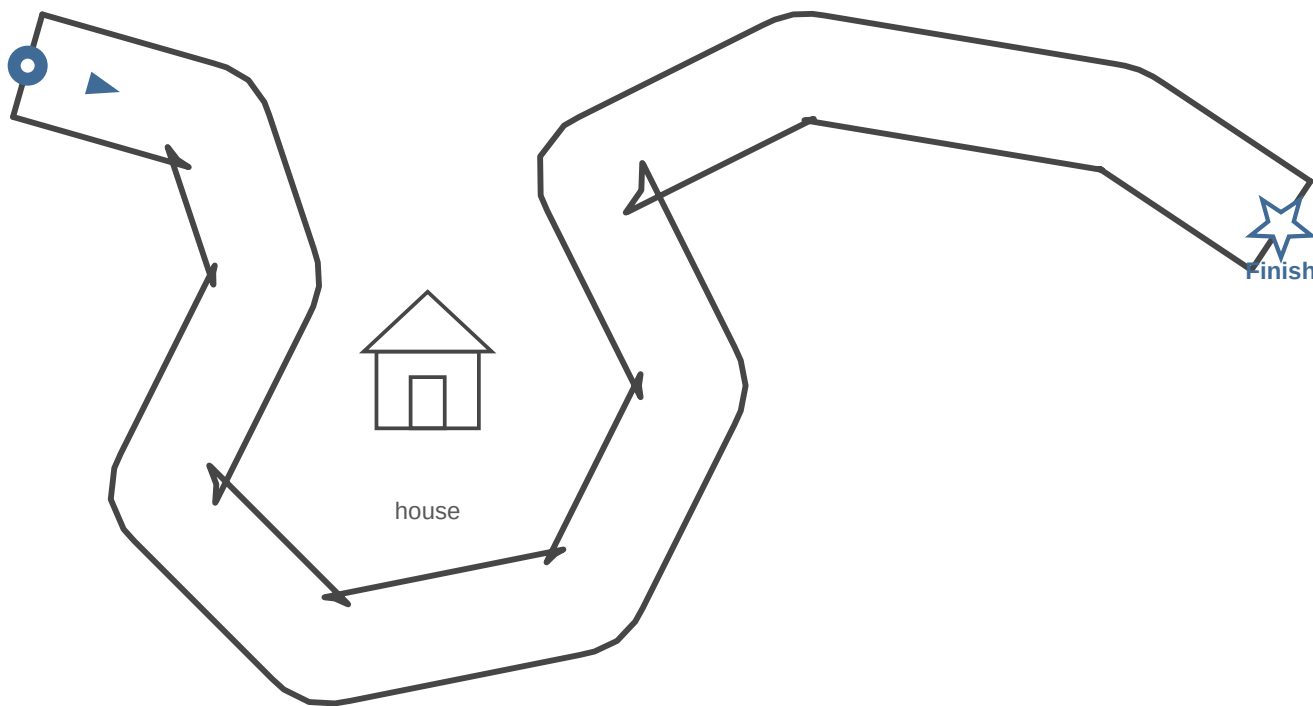

Path 2 — loop around

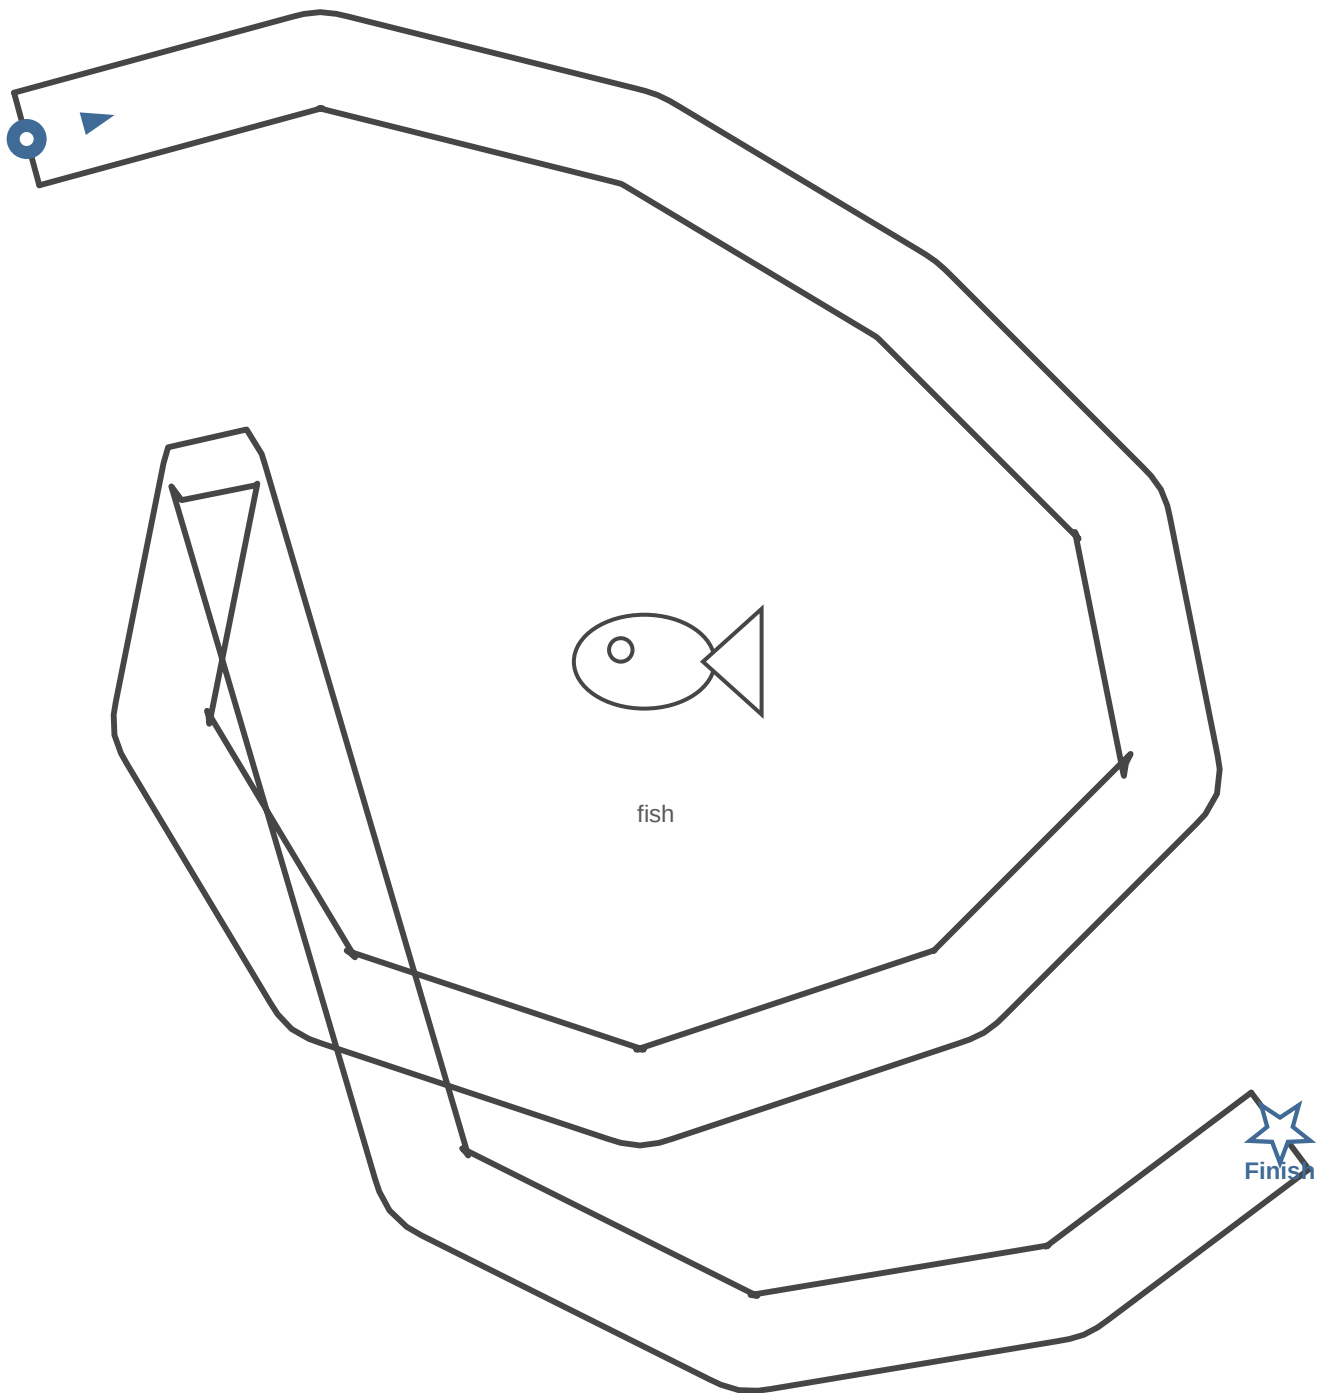

Around the house & apple

Mild turns — go around the outline pictures

Around the fish

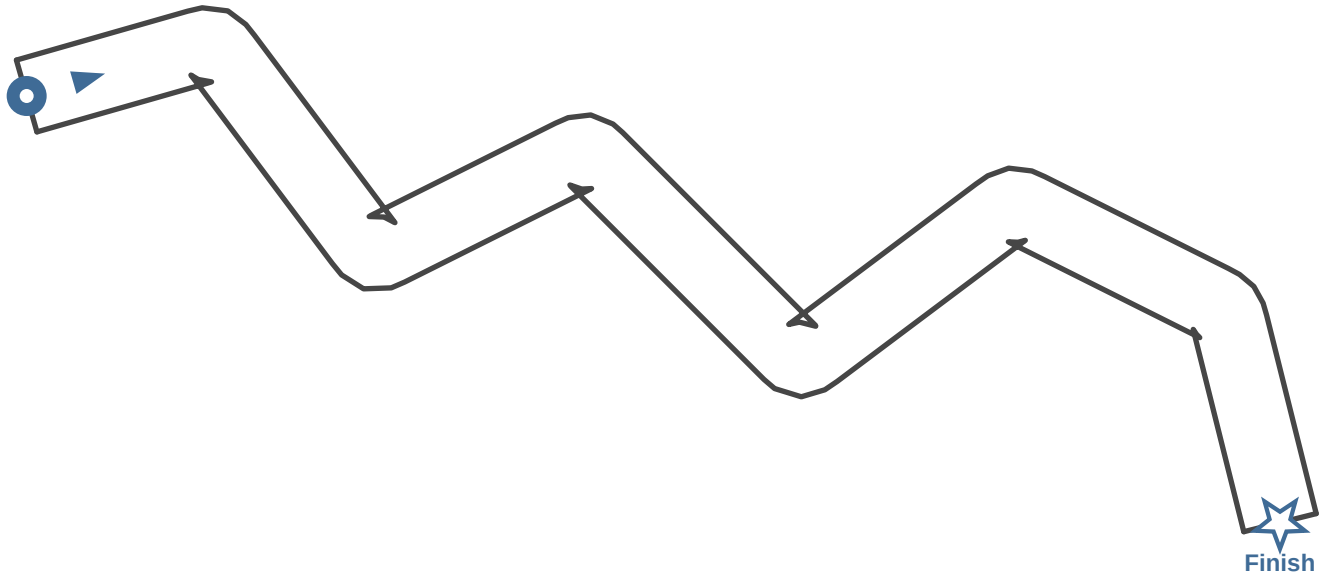

One longer path with friendly turns

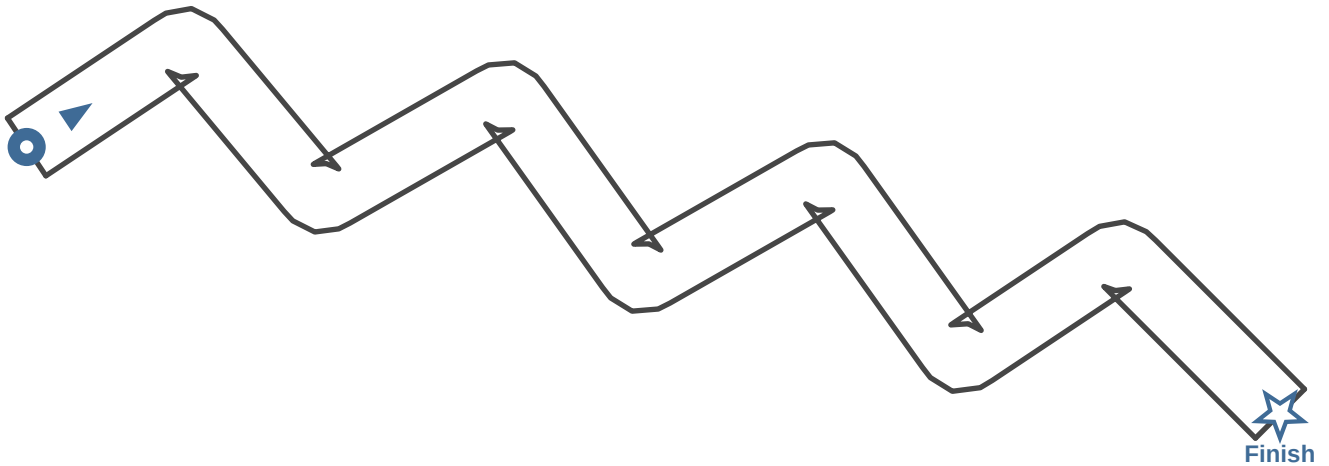

Narrower corridors

A bit tighter — still kid-friendly

Path 1

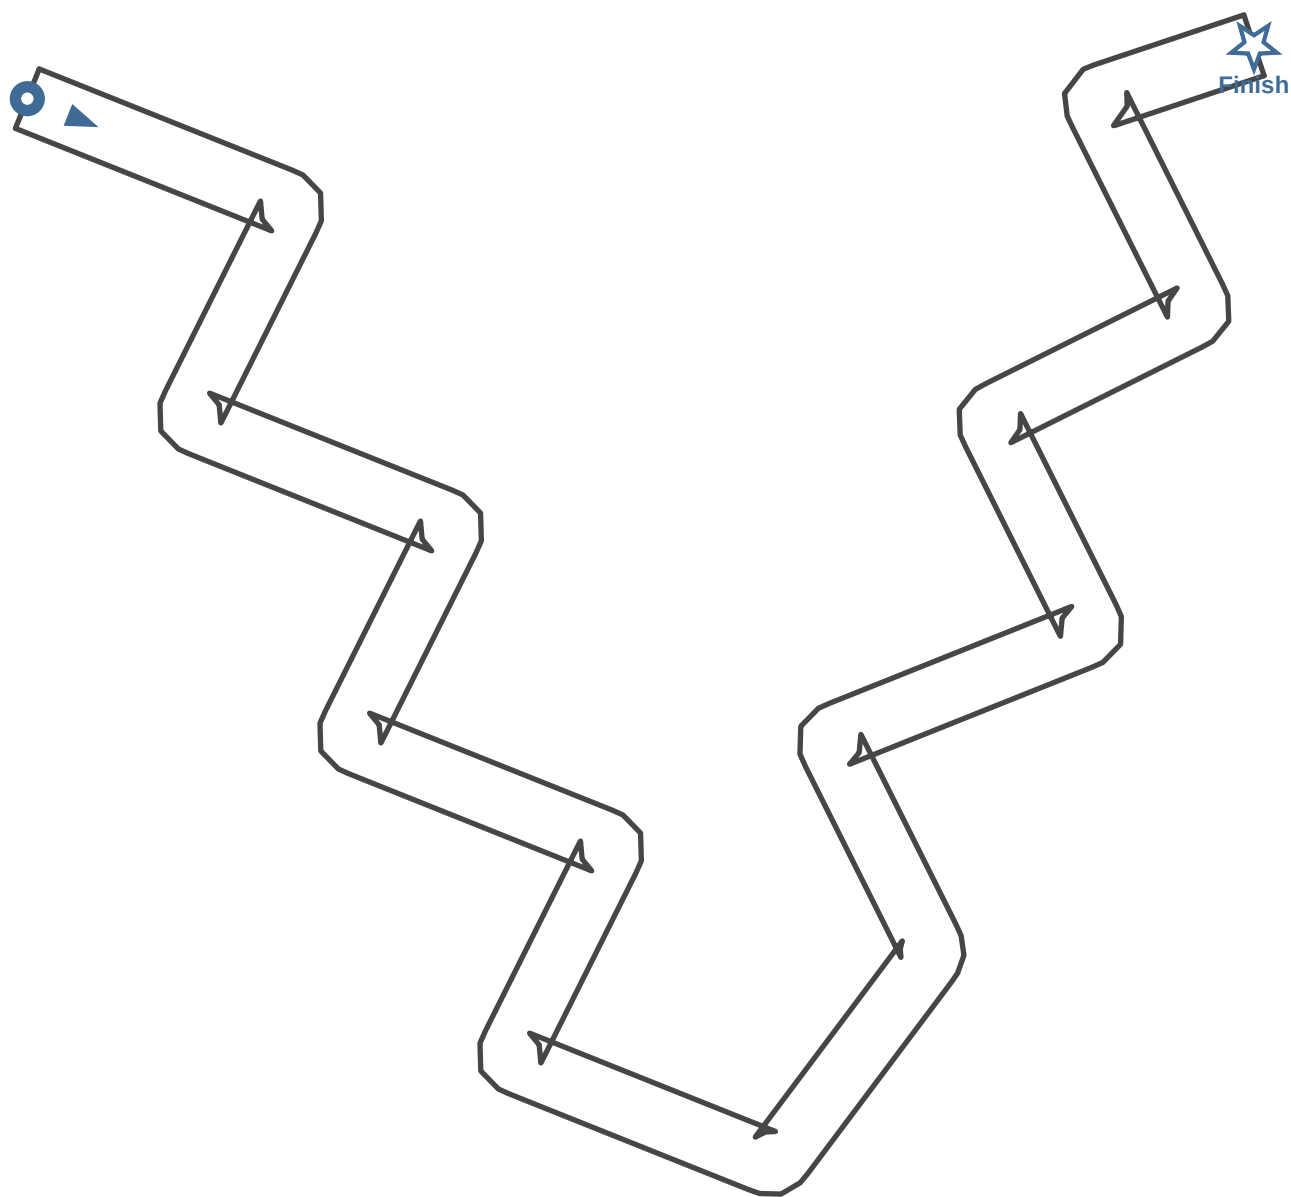

Path 2 — more turns

Twistier paths

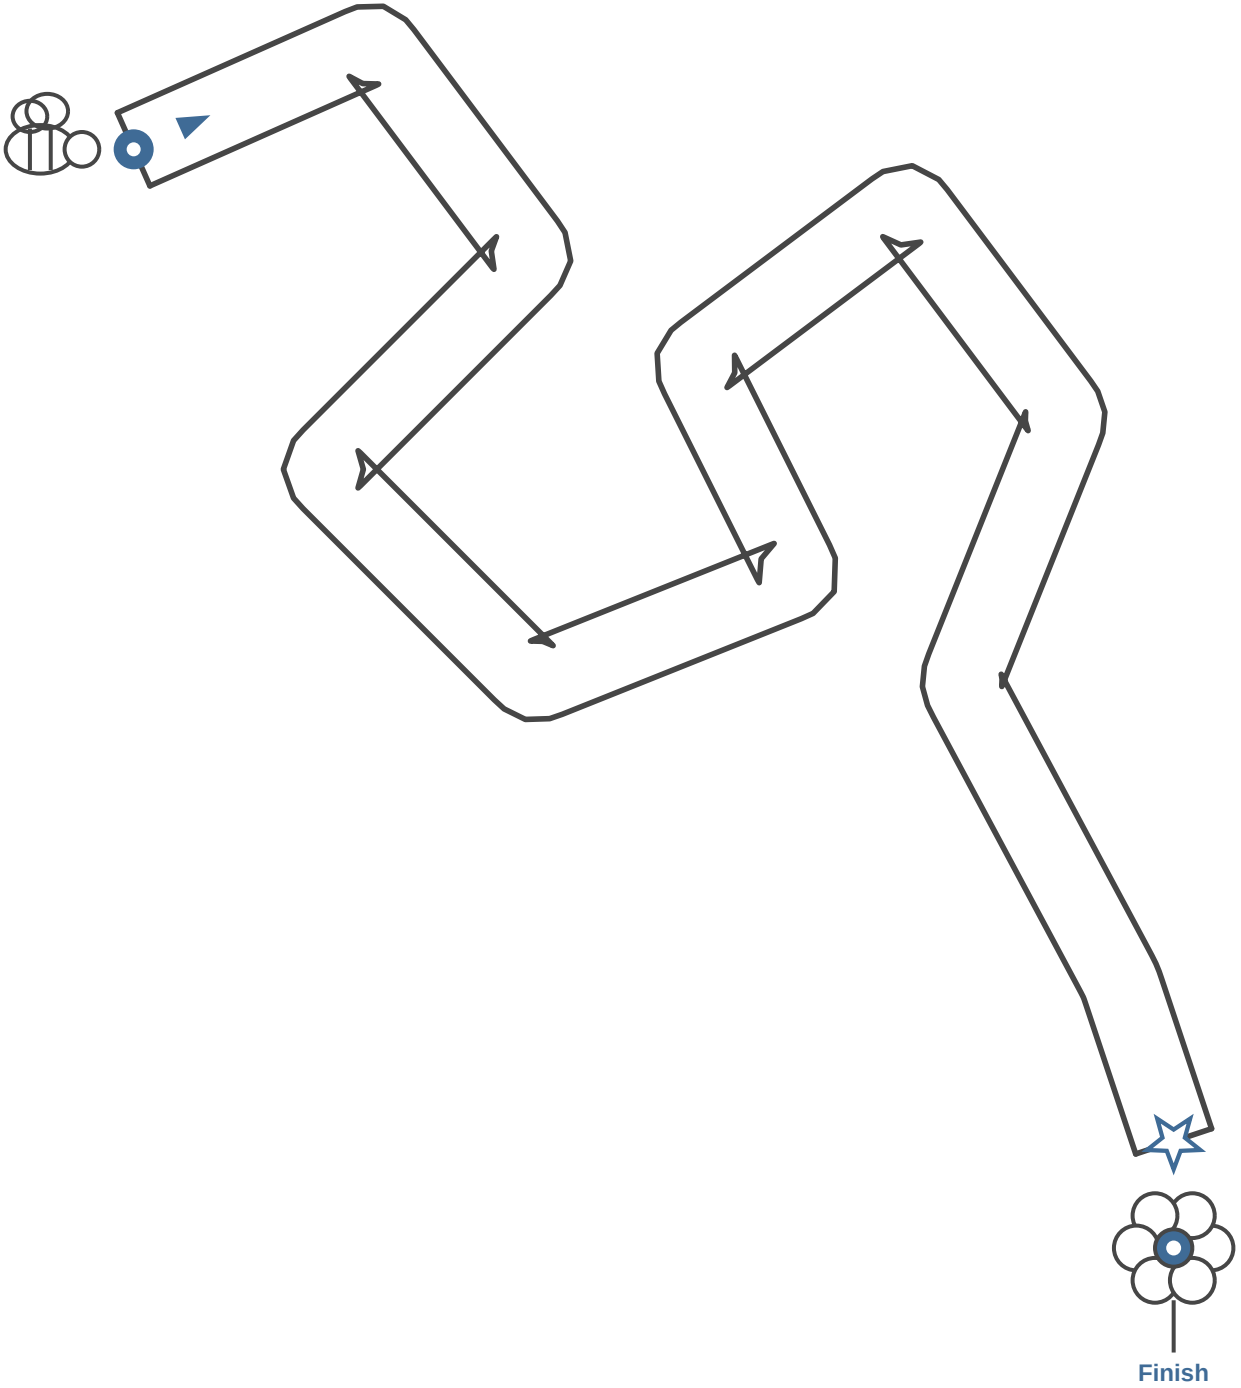

Plan ahead — slow and steady wins

Tip: lift your elbow a little and use small finger movements.

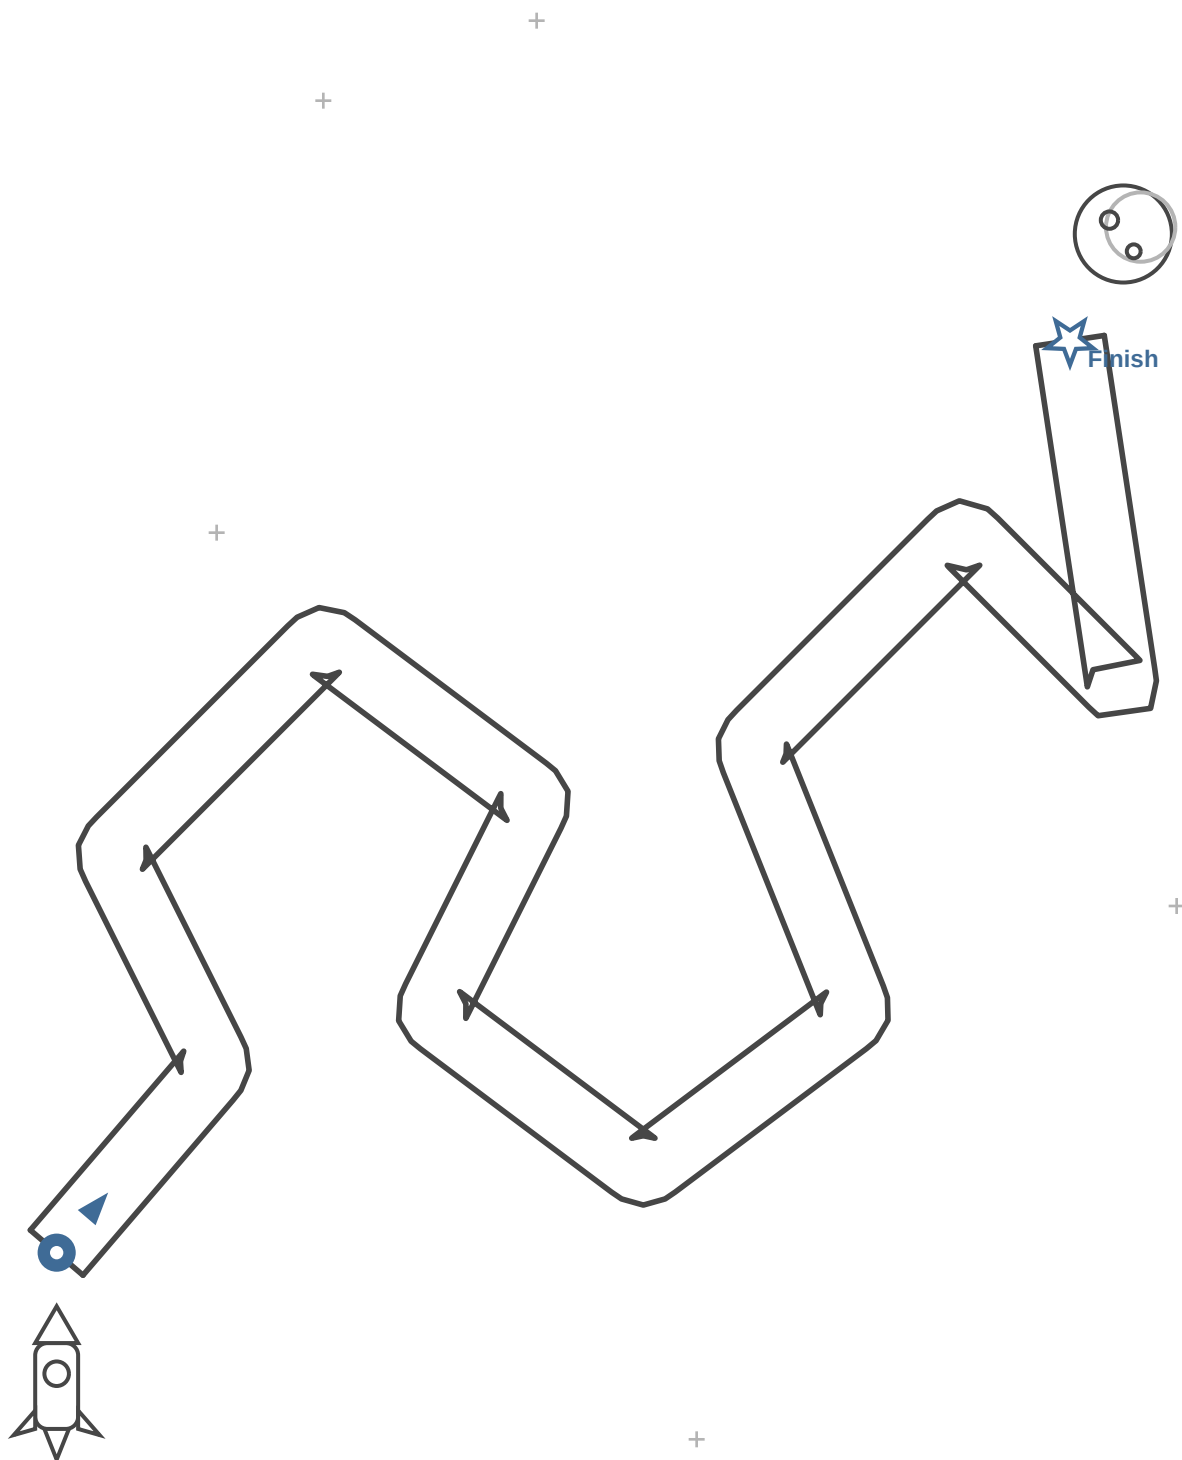

Bee to flower

Help the bee fly the path to the flower

Rocket to the moon

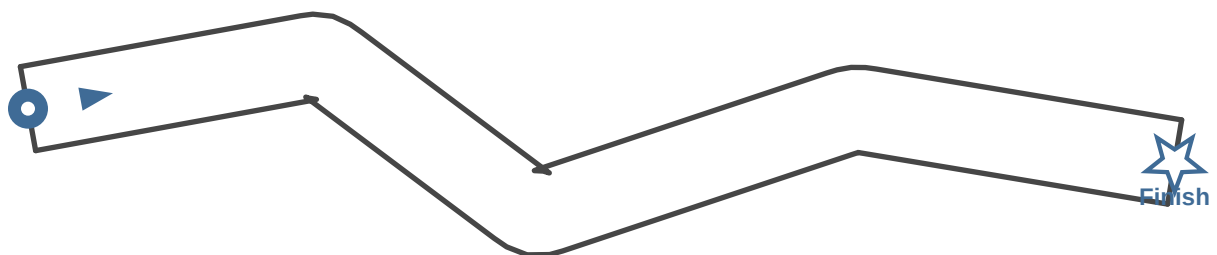

Blast along the space path — don't leave the trail!

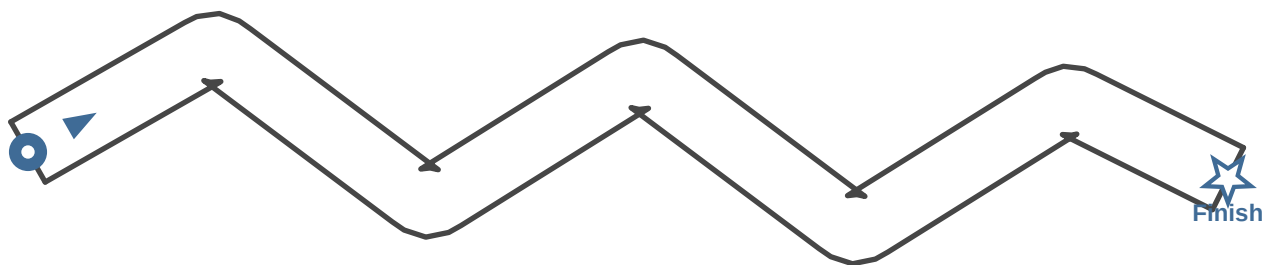

Mini mazes mix

Three short paths on one page — warm-up practice

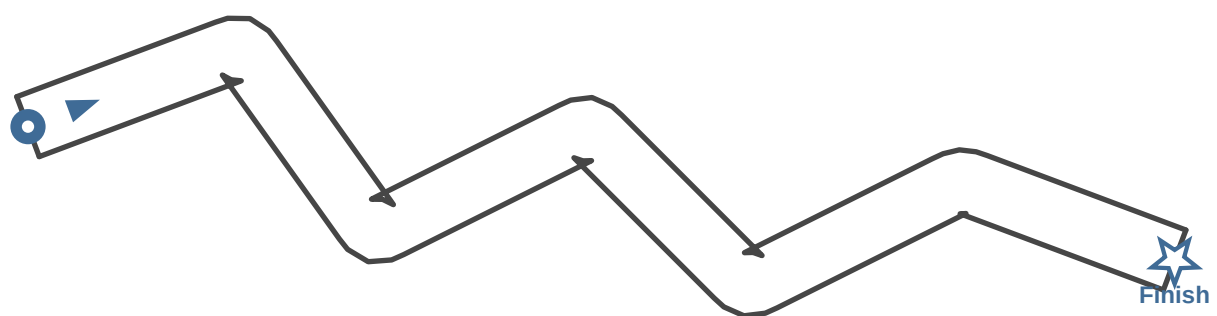

A

B

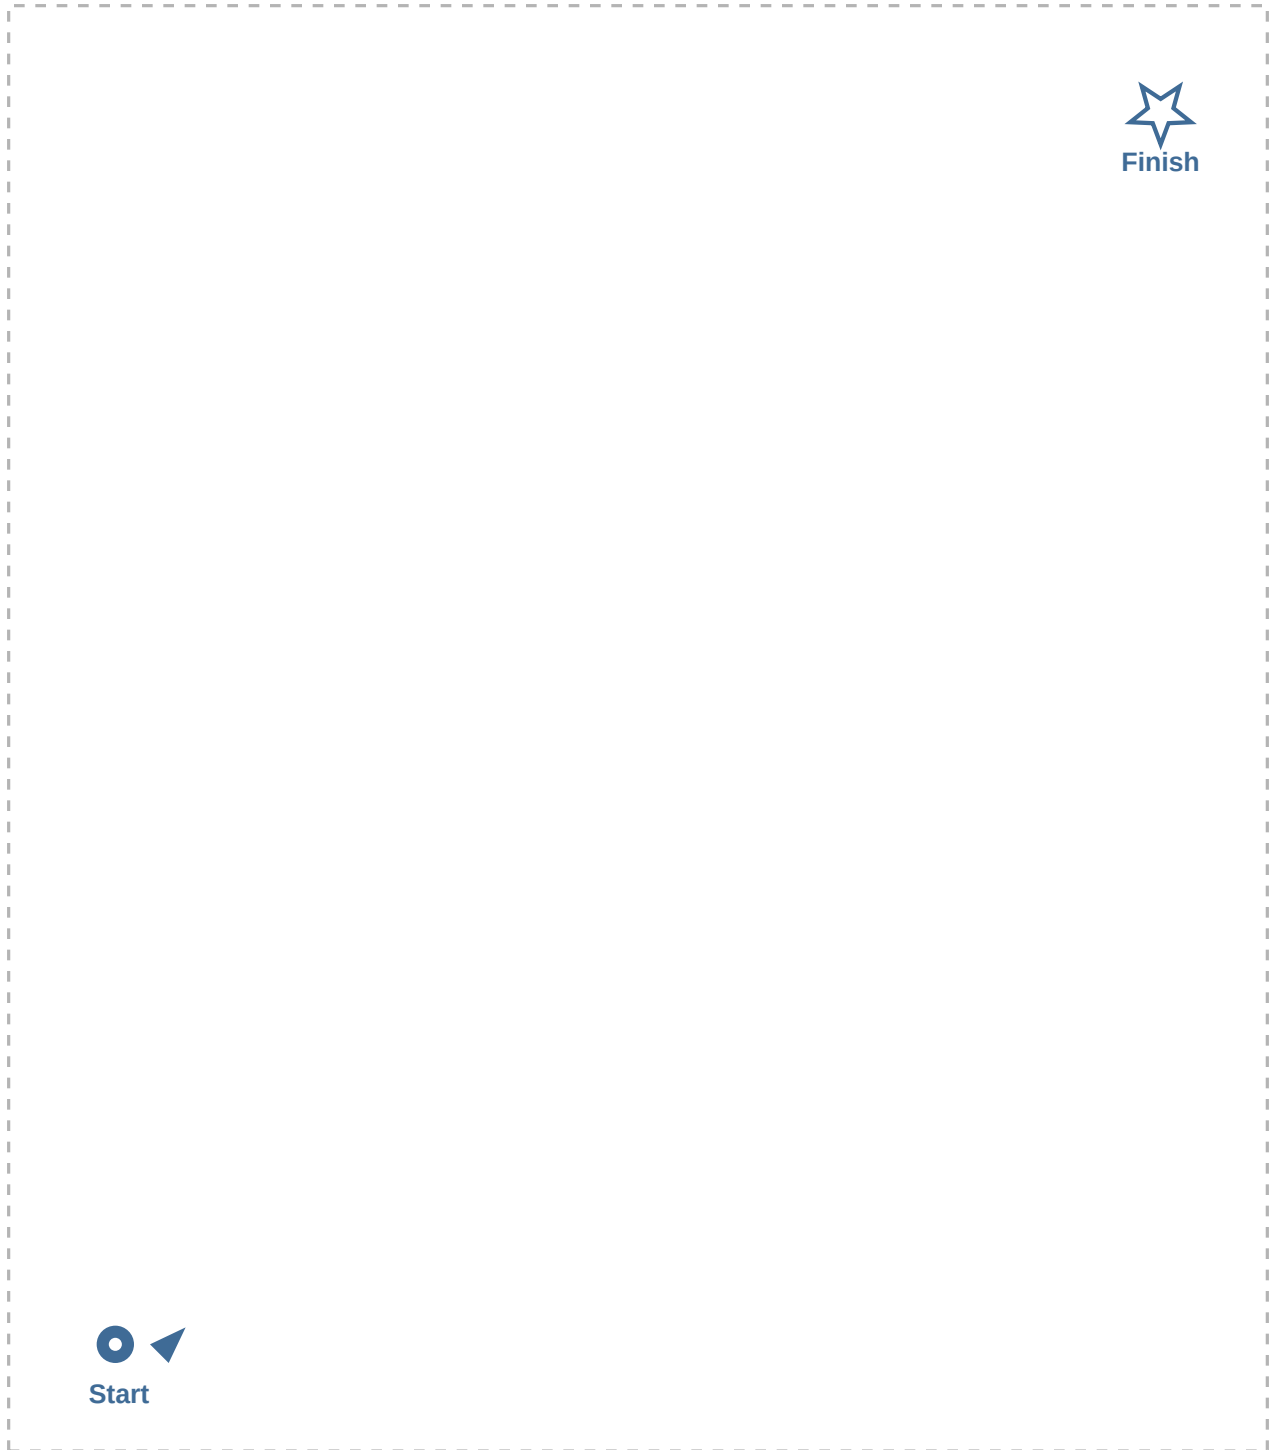

C

Draw your own path

Connect start to finish — invent a maze corridor!

Ideas: draw two parallel lines like a road, add a few bends,
or make a spiral. Stay wide enough for a chubby pencil!
